

Building Links celebrates 19 years

Building Links, a North Island construction report, is celebrating its 19th anniversary this week, publishing its 950th edition on May 16.

In its current form, Building Links is a subscription e-mail newsletter that publishes 50 times a year, offering news and information about the construction industry on Northern Vancouver Island. Publisher Clarice Coty started the publication May 17, 1993.

An industry survey identified a need among businesses from the Van-

couver Island construction industry for their own source of local, up-to-date news about development permits, building permits, tenders, and quarterly and annual construction statistics.

The Building Links website features a blog that offers weekly updates.

In addition, the RealEstateAndConstruction.ca blog features daily updates from across Vancouver Island.

To enjoy your four free issues of Building Links, visit the website at www.buildinglinks.ca.

CLARICE COTY IS the publisher of Building Links.
